Dear Friends,

As another year rolls around and we enter our 49th year of serving Hereford breeders across America with their semen and certificate needs. Technology continues to help us move forward with the genetics we work with. It is amazing the progress the Hereford breed has made in the last decade.

This year marks our personal 62nd year of breeding, raising and promoting Hereford cattle. We started our herd in 1962 and Linda's father founded Prairie Sun Farm in 1951 with horned Hereford cattle. We have lived and breathed Hereford cattle our entire life. We have seen tremendous progress over the years. The amount of data and information available today is tremendous. Hereford cattle are seeing extremely great demand today; especially from the commercial cattleman. The commercial cattlemen are recognizing the value of a white face on their calves. We offer you the largest variety of Hereford genetics available from one source so you may be able to cash in on the good times.

We thank all of our loyal customers for your continued support. We will always strive to continue our dedicated, personalized service. We welcome any and all new customers. We offer you the same personalized service to meet your semen and certificate needs. The EPD's listed are from the March, 2024 evaluation from the data collected by the American Hereford Association.

Our service offers you the opportunity to buy most of your Hereford genetics in one place. We are your "one stop shopping center" for Hereford genetics. The genetics represented here are among the best in the breed. We are continually updating our list to offer you more sires. Be sure to check our website for updated pictures and new bulls that become available throughout the year.

The majority of the semen is at Hawkeye Breeders, Adel, Iowa, whom we have worked with since 1975. They have the largest number of vapor shippers available in the semen industry. The semen is shipped by UPS, Speedie or Fed Ex in a vapor shipper. The semen is delivered to your door and one of the carriers will return and pick up the tank. It is important to remove the semen the same day that it arrives. Often the carrier will return the next day to pick up the shipper. We also have semen at other bull studs throughout the country. Just give us a call and we can let you know if there is semen stored on a particular bull at a stud near you.

We also carry our jug to many of the sales and shows that we are involved with. Many times we can fill your needs in this manner provided we have your order well in advance. We process your order immediately, however during the months of March, April and May there may be a short delay due to the number of shippers available. When placing an order remember there is little Saturday delivery and no Sunday delivery. It usually takes three to four days for delivery and shipping on Monday or Tuesday is best. Please keep this in mind for prompt service.

Certificates will be released to your account at the AHA. We need **your account number** at the American Hereford Association to accurately place them in the account needed.

We thank our daughter-in-law, Samara and son, Brian, for developing and maintaining our website: www.reedent.com. They do a great job putting as much information as possible about Hereford cattle on this site. We appreciate all of the many favorable comments we have received over the years. Be sure to visit this website as you can get the EPDs, pedigrees and many pictures and find ordering information. Some sale catalogs, cattle for sale and some sale reports are on this website. They would be happy to talk to you about a website, catalog on-line or targeted email advertising. Just contact Cats, Cows and Computers for information.

We appreciate your business and look forward to serving you. Please contact us when you need Hereford semen or AI certificates; remember "one call does it all", 24 hours a day, seven days a week. We wish each of you much success in 2024.

Sincerely,

Jim and Linda

Looking for bulls you don't
see here, check www.reedent.com
or give us a call
for additional listings not published.
